Variable Investment Option Performance Update

MetLife Investors USA Insurance Company

The performance data quoted represents past performance and does not guarantee future results. Current performance may be lower or higher than the performance data quoted. Performance current to the most recent month-end may be viewed at www.metlifeinvestors.com. The investment return and principal value of an investment will fluctuate and an investor's shares, when redeemed, may be worth more or less than their original cost. For Sub-Accounts that invest in Portfolios of the underlying Trust that were in existence prior to the Sub-Account inception date, these returns have been adjusted to reflect the charges and expenses of the Series VA Variable Annuity, as if the contract had existed during the stated period(s), including all Portfolio-level expenses, the Mortality & Expense and Administration Charges of 1.30% and the annual Account Fee of $30†. These results do not reflect the withdrawal charges which begin at 7% and decrease over 7 years (for returns reflecting these charges, see the Standardized report pages in this document that follows this Nonstandardized report). **These figures represent past performance and are not an indication of future performance.**

*Annualized for Investment Options/Portfolios in existence for more than one year.

An investment in the BlackRock Money Market Portfolio is not insured or guaranteed by the Federal Deposit Insurance Company or any other government agency. Although the Portfolio seeks to preserve the value of your investment at $100 per share, it is possible to lose money by investing in the Portfolio.

Current performance may be lower or higher than the performance quoted.

This is past performance and is no guarantee of future results.

The performance shown may reflect, for some periods, the management of previous subadvisers.

[1]This portfolio invests in a "feeder fund" that does not buy investment securities directly but instead invests in shares of a corresponding American Fund "master" fund, which in turn purchases investment securities. The performance of the feeder fund reflects the performance of the underlying master fund from the inception date for the underlying master fund, (American Funds Growth Fund - 2/8/84), however it also reflects the additional 0.55% 12b-1 fee assessed against the feeder fund. Therefore the return of the feeder fund is lower than that of the master fund. The inception date for the feeder funds was 4/28/2008.

Certain optional benefit riders have investment allocation restrictions. Not all investment portfolios are available for all product and/or optional benefit riders. Please see the product prospectus for more information.

The performance data quoted represents past performance and does not guarantee future results. Current performance may be lower or higher than the performance data quoted. Performance current to the most recent month-end may be viewed at www.metlifeinvestors.com.

The investment return and principal value of an investment will fluctuate and an investor's shares, when redeemed, may be worth more or less than their original cost. Each Investment Option consists of a sub-account of the separate account supporting the contract (a "Sub-Account") that invests solely in shares of a fund portfolio (a "Portfolio"). *Standardized Performance* for an Investment Option, as defined by the SEC, is the Average Annual Total Return for periods commencing no earlier than the Sub-Account inception date and terminating at the end of the most recent calendar quarter. Average Annual Total Returns shown that include periods prior to the Sub-Account inception date are *Non-Standardized Performance.* Charges for Standardized Performance include all Portfolio-level expenses, the Mortality & Expense and Administration Charges of 1.30%, the Enhanced Death Benefit rider charge of 1.15% of the Death Benefit Base, the optional Guaranteed Minimum Income Benefit rider charge of 1.00% of the Income Base, the maximum applicable withdrawal charge of 7% and the annual Account Fee of $30†.

Past performance does not guarantee future results.

Additional prospectuses for the Series VA variable annuity issued by MetLife Investors USA Insurance Company and for the investment portfolios are available from your financial professional or at www.metlifeinvestors.com. The contract prospectus contains information about the contract's features, risks, charges and expenses. The investment objectives, risks and policies of the investment options, as well as other information about the investment options, are described in their respective prospectuses. Investors should consider the investment objectives, risks, charges and expenses of the investment company carefully before investing. Please read the prospectuses and consider this information carefully before investing. Product availability and features may vary by state. Please refer to the contract prospectus for more complete details regarding the living benefits.

Variable annuities are long-term investments designed for retirement purposes. The Series VA variable annuity has limitations, exclusions, charges, termination provisions and terms for keeping it in force. There is no guarantee that any of the variable investment options in this product will meet its stated goals or objectives. The account value is subject to market fluctuations and investment risk so that, when withdrawn, it may be worth more or less than its original value. All product guarantees, including optional benefits, are based on the claims-paying ability and financial strength of the issuing insurance company. Please contact your financial professional for complete details.

Withdrawals of taxable amounts are subject to ordinary income tax and if made before age 59½, may be subject to a 10% Federal income tax penalty. Withdrawals will reduce the living and death benefits and account value. Withdrawals may be subject to withdrawal charges.
