

**Brighthouse Variable Survivorship Life
Performance Summary as of 08/31/21**

Brighthouse Life Insurance Company

Variable Investment Options Performance Update

The following chart represents past performance and does not guarantee future results. Current performance may be lower or higher than the performance quoted. Past Performance is no guarantee of future results. The investment return and the cash surrender value of a policy will fluctuate so that, at the time of a withdrawal or surrender, the cash surrender value may be worth more or less than the amount originally invested. For Investment Options that invest in a Portfolio that was in existence prior to the inception of the Investment Option, the returns shown for such prior period have been adjusted to reflect the policy's guaranteed maximum M&E risk charge of 0.80% and the guaranteed maximum separate account expenses charge of 0.10%. The returns shown reflect these charges and the fees and expenses of the Portfolios, but do not reflect other policy charges, including the sales charge, surrender charge and cost of insurance charge. Returns would be significantly lower if these charges were taken into consideration.

Annualized Rates of Return after Deduction of Portfolio Level Expenses

Investment Options	Portfolio Inception	One Month	Year to Date	1 Year	3 Years	5 Years	10 Years or Since Portfolio Inception*
