Variable Investment Option Performance Update

The performance data quoted represents past performance and does not guarantee future results. Current performance may be lower or higher than the performance figures quoted. Performance current to the most recent month-end may be viewed at www.metlife.com. The investment return and principal value of an investment will fluctuate and an investor's shares, when redeemed, may be worth more or less than their original cost. For Investment Divisions that invest in Portfolios of the underlying Trust that were in existence prior to the Investment Division inception date, these returns have been adjusted to reflect the charges and expenses of the Preference Premier B Plus Class Variable Annuity, as if the contract had existed during the stated period(s), including all Portfolio-level expenses and the Separate Account Charge of 1.80% and the annual Account Fee of \$30+. These results do not reflect the withdrawal charges which begin at 8% and decrease over 9 years (for returns reflecting these charges, see the Standardized report pages in this document that follows this Nonstandardized report). These results do not reflect the bonus credit applicable to this series of contract. **These figures represent past performance and are not an indication of future performance.**

Prior to the opening of business on May 3, 2004, the FI Mid Cap Opportunities Portfolio was merged into the Janus Mid Cap Portfolio and Fidelity Management & Research Company became sub-investment manager for the Portfolio which changed its name to FI Mid Cap Opportunities Portfolio. The investment division with the name FI Mid Cap Opportunities on April 30, 2004 ceased to exist. Effective May 3, 2010, the following investment portfolio merged: FI Mid Cap Opportunities Portfolio into Morgan Stanley Mid Cap Growth Portfolio (formerly, Van Kampen Mid-Cap Growth Portfolio). Performance for the Morgan Stanley Mid Cap Growth Portfolio (formerly, Van Kampen Mid-Cap Growth Portfolio) consists of the performance for the FI Mid Cap Opportunities Portfolio before and on April 30, 2010 and the Morgan Stanley Mid Cap Growth Portfolio after April 30, 2010.

This portfolio invests in a "feeder fund" that does not buy investment securities directly but instead invests in shares of a corresponding American Fund "master" fund, which in turn purchases investment securities. The performance of the feeder fund reflects the performance of the underlying master fund from the inception date for the underlying master fund, (American Funds Growth Fund - 2/8/84), however it also reflects the additional 0.55% 12b-1 fee assessed against the feeder fund. Therefore the return of the feeder fund is lower than that of the master fund. The inception date for the feeder funds was 4/28/2008.

As of May 2, 2011, the following portfolio merger took effect: MetLife Aggressive Allocation Portfolio into MetLife Aggressive Strategy Portfolio (currently known as MetLife Asset Allocation 100 Portfolio).
