Variable Investment Option Performance Update

The performance data quoted represents past performance and does not guarantee future results. Current performance may be lower or higher than the performance figures quoted. Performance current to the most recent month-end may be viewed at [www.metlife.com](http://www.metlife.com). The investment return and principal value of an investment will fluctuate and an investor's shares, when redeemed, may be worth more or less than their original cost. For Investment Divisions that invest in Portfolios of the underlying Trust that were in existence prior to the Investment Division inception date, these returns have been adjusted to reflect the charges and expenses of the Preference Premier L Class Variable Annuity, as if the contract had existed during the stated period(s), including all Portfolio-level expenses and the Separate Account Charge of 1.50% and the annual Account Fee of \$30†. These results do not reflect the withdrawal charges which begin at 7% and decrease over 3 years (for returns reflecting these charges, see the Standardized report pages in this document that follows this Nonstandardized report). **These figures represent past performance and are not an indication of future performance.**

**Non-Standardized Performance: Without surrender charges applied

Prior to the opening of business on May 3, 2004, the FI Mid Cap Opportunities Portfolio was merged into the Janus Mid Cap Portfolio and Fidelity Management & Research Company became sub-investment manager for the Portfolio which changed its name to FI Mid Cap Opportunities Portfolio. The investment division with the name FI Mid Cap Opportunities on April 30, 2004 ceased to exist. Effective May 3, 2010, the following investment portfolio merged: FI Mid Cap Opportunities Portfolio into Morgan Stanley Mid Cap Growth Portfolio (formerly, Van Kampen Mid-Cap Growth Portfolio). Performance for the Morgan Stanley Mid Cap Growth Portfolio (formerly, Van Kampen Mid-Cap Growth Portfolio) consists of the performance for the FI Mid Cap Opportunities Portfolio before and on April 30, 2010 and the Morgan Stanley Mid Cap Growth Portfolio after April 30, 2010.

Effective April 28, 2008, the MFS® Value Portfolio of the Met Investors Series Trust (MIST®) merged with and into the MFS® Value Portfolio of the Metropolitan Series Fund, Inc. (MSF). (Note that because the MIST MFS® Value Portfolio is deemed to be the "accounting" survivor of the merger, the performance history set forth in the Portfolio's April 28, 2008 prospectus is that of the MIST MFS® Value Portfolio.)

This portfolio invests in a "feeder fund" that does not buy investment securities directly but instead invests in shares of a corresponding American Fund "master" fund, which in turn purchases investment securities. The performance of the feeder fund reflects the performance of the underlying master fund from the inception date for the underlying master fund, (American Funds Growth Fund - 2/8/84), however it also reflects the additional 0.55% 12b-1 fee assessed against the feeder fund. Therefore the return of the feeder fund is lower than that of the master fund. The inception date for the feeder funds was 4/28/2008.

As of May 2, 2011, the following portfolio merger took effect: MetLife Aggressive Allocation Portfolio into MetLife Aggressive Strategy Portfolio (currently known as MetLife Asset Allocation 100 Portfolio). The performance data quoted represents past performance and does not guarantee future results. Performance current to the most recent month-end may be viewed at [www.metlife.com](http://www.metlife.com). The investment return and principal value of an investment will fluctuate and an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. Each Investment Option consists of an investment division of the separate account supporting the contract (an "Investment Division") that invests solely in shares of a fund portfolio (a "Portfolio"). *Standardized Performance* for an Investment Option, as defined by the SEC, is the Average Annual Total Return for periods commencing no earlier than the Investment Division inception date and terminating at the end of the most recent calendar quarter. Average Annual Total Returns shown that include periods prior to the Investment Division inception date are *Non-Standardized Performance*.
