SECTION 2: Required minimum distribution (RMD) payment options

A.) Automated RMD Option - The Company will calculate your Required Minimum Distribution amount and distribute the payment(s) based on the frequency selected below. You will continue to receive a reminder each year in January as required by the IRS, regardless of your instructions for future years.

Restrictions: If you currently have a Systematic Withdrawal Program (SWP) in effect on your contract, you may not elect a payment frequency for your Automated RMD option. Your RMD will be withdrawn annually in December after all SWP payments for the year have been processed. If you elect a Quarterly or Monthly option, but it is unavailable for your product, we will process your request as an Annual payment scheduled in December. The Quarterly and Monthly payment options are not available for contracts issued with a Guaranteed Withdrawal Benefit.

Important Information Regarding the Treatment of RMDs Exclusive for contracts with Guaranteed Withdrawal Benefit (GWB) or the Lifetime Withdrawal Guarantee (LWG) riders. The Required Minimum Distribution (RMD) may be larger than your Annual Benefit Payment. In order to qualify for the increased RMD payment without the increase being considered an excess withdrawal, after the first contract year, you must enroll in the Automated RMD program and elect annual payment frequency. In such case we will increase your Annual Benefit Payment to equal your most recently calculated RMD amount, if such amount is greater than your Annual Benefit Payment. Any cumulative

withdrawals you make to satisfy your required minimum distribution amount outside of the Automated RMD program will be treated as excess withdrawals if they exceed your Annual Benefit Payment, and this can have an adverse impact on the value of the benefit (see *the prospectus for details*). If you have elected another Systemic Withdrawal (SWP) program or have taken or are considering taking a partial withdrawal from your contract, electing a RMD program may significantly reduce the value of the GWB or LWG benefit. Prior to requesting a RMD program for your contract you should consult with your representative and review and discontinue any active SWP program.

Please be aware that withdrawing more than your guaranteed withdrawal amount, called "excess withdrawals", may permanently reduce your future guaranteed withdrawal amounts. If you are considering making an excess withdrawal but are uncertain as to how it will affect your future guaranteed withdrawal amounts, we encourage you to contact us prior to requesting the withdrawal to obtain a personalized, transaction-specific calculation showing the effect of the excess withdrawal.
