

## Variable Investment Option Performance Update

Brighthouse Life Insurance Company

The performance data quoted represents past performance and does not guarantee future results. Current performance may be lower or higher than the performance data quoted. Performance current to the most recent month-end may be viewed at [www.BrighthouseFinancial.com](http://www.BrighthouseFinancial.com). The investment return and principal value of an investment will fluctuate and an investor's shares, when redeemed, may be worth more or less than their original cost. For Sub-Accounts that invest in Portfolios of the underlying Trust that were in existence prior to the Sub-Account inception date, these returns have been adjusted to reflect the charges and expenses of the Brighthouse Prime Options Variable Annuity, as if the contract had existed during the stated period(s), including all Portfolio-level expenses, the Mortality & Expense and Administration Charges of 1.30% and the annual Account Fee of \$50†. These results do not reflect the withdrawal charges which begin at 8% and decrease over 8 years (for returns reflecting these charges, see the Standardized report pages in this document that follows this Nonstandardized report). **These figures represent past performance and are not an indication of future performance.**

 Non-Standardized Performance: Without surrender charges applied
