Prospectuses for the underlying investment funds are available from Metropolitan Life Insurance Company. The prospectuses contain information about the investment objectives, risks, and policies of the underlying investment funds, as well as other information about the underlying funding choices. Please read the prospectuses and consider this information carefully before investing. Product availability and features may vary by state. All product guarantees are subject to the financial strength and claims-paying ability of the issuing insurance company.

The average annual total returns shown above represent past performance and are not an indication of future performance. Past performance does not guarantee future results. Current performance may be lower or higher than the performance information shown. The investment experience and cash value of a policy will fluctuate so that, at the time of a withdrawal or surrender, the cash value may be worth more or less than the amount of premiums paid.

The chart above illustrates the past performance of the UL II policy's variable funding options. The UL II policies were first offered on May 1, 1990. Performance assumes the UL II policy was in existence for the period shown. These rates reflect fund management fees and direct fund expenses and the charge for mortality and expense risks of the policy. The rates do not reflect the policy's sales charge, charge for the state and federal taxes attributable to premiums, administration charge, cost of insurance charge and surrender charge. (See last prospectus and supplement for details.) **If these charges were included, the performance results would be significantly lower.** We urge you to contact your MetLife appointed agent to obtain a personalized illustration, which reflects the charges and expenses applicable to your policy.

A MetLife investment option may have a name and/or investment objective similar to that of another mutual fund with the same manager. Despite any similarity, the MetLife option is separate and distinct and will not have the same performance. Different performance will result from different investment policies, cash flows, fees, expenses and fund asset sizes.

A fee waiver or expense limit may be or have been in place for any of the investment options. The reduced expenses that may result from this waiver or limit may increase performance results. Please see the prospectus for more information.

Prior to March 6, 2017, Brighthouse Funds Trust I was known as Met Investors Series Trust and Brighthouse Funds Trust II was known as Metropolitan Series Fund.

On April 30, 2007, the BlackRock Large Cap Core Portfolio of the Metropolitan Series Fund, Inc. merged with and into the BlackRock Large-Cap Core Portfolio (currently known as Met/Wellington Large Cap Research Portfolio) of the Met Investors Series Trust.
