The performance data quoted represents past performance and does not guarantee future results. Current performance may be lower or higher than the performance data quoted. Performance current to the most recent month-end may be viewed at www.BrighthouseFinancialPro.com. The investment return and principal value of an investment will fluctuate and an investor's shares, when redeemed, may be worth more or less than their original cost. For Sub-Accounts that invest in Portfolios of the underlying Trust that were in existence prior to the Sub-Account inception date, these returns have been adjusted to reflect the charges and expenses of the Class A Variable Annuity, as if the contract had existed during the stated period(s), including all Portfolio-level expenses, the Mortality & Expense and Administration Charges of 0.75%, the annual Account Fee of \$30+ and the minimum sales charge of 1%. (Available for investments of \$1 million or greater; sales charges vary based on amount contributed up to a maximum rate of 5.75%. Deduction of sales charges at higher rates would reduce the performance shown.) The Class A product does not impose any withdrawal charges on withdrawals. **These figures represent past performance and are not an indication of future performance.**

The account value is subject to market fluctuations and investment risk so that, when withdrawn, it may be worth more or less than its original value. All product guarantees, including optional benefits, are subject to the claims-paying ability and financial strength of the issuing insurance company.
