¹This portfolio invests in a "feeder fund" that does not buy investment securities directly but instead invests in shares of a corresponding American Fund "master" fund, which in turn purchases investment securities. The performance of the feeder fund reflects the performance of the underlying master fund from the inception date for the underlying master fund, (American Funds Growth Fund - 2/8/84), however it also reflects the additional 0.55% 12b-1 fee assessed against the feeder fund. Therefore the return of the feeder fund is lower than that of the master fund. The inception date for the feeder funds was 4/28/2008.

Certain optional benefit riders have investment allocation restrictions. Not all investment portfolios are available for all product and/or optional benefit riders. Please see the product prospectus for more information.
