

# Zenith Accumulator Variable Annuity

Performance Summary as of 01/31/18  
Variable Investment Option Performance Update

Metropolitan Life Insurance Company

The performance data quoted represents past performance and does not guarantee future results. Current performance may be lower or higher than the performance figures quoted. Performance current to the most recent month-end may be viewed at [www.metlife.com](http://www.metlife.com). The investment return and principal value of an investment will fluctuate and an investor's shares, when redeemed, may be worth more or less than their original cost. For Investment Divisions that invest in Portfolios of the underlying Trust that were in existence prior to the Investment Division inception date, these returns have been adjusted to reflect the charges and expenses of the Zenith Accumulator Variable Annuity, as if the contract had existed during the stated period(s), including all Portfolio-level expenses, the Mortality & Expense and Administration Charges of 1.35% (the Mortality and Expense Risk Charge includes an additional charge of 0.25% of average daily net assets on the American Funds Bond, American Funds Growth, American Funds Growth-Income and American Funds Global Small Capitalization Sub-accounts) and the annual Account Fee of \$30. These results do not reflect the contingent deferred sales charge which begins at 6.5% and decreases over 10 years (for returns reflecting these charges, see the Standardized report pages in this document that follows this Nonstandardized report). **These figures represent past performance and are not an indication of future performance.**

**This is past performance and is no guarantee of future results.**

A MetLife investment option may have a name and/or investment objective similar to that of another mutual fund with the same manager. Despite any similarity, the MetLife option is separate and distinct and will not have the same performance. Different performance will result from different investment policies, cash flows, fees, expenses and fund asset sizes.

The performance shown may reflect, for some periods described, the management of previous investment managers. Please see the prospectus for more information.

Waiver and/or reimbursement of investment management fees and certain fund expenses may have taken place for each of these portfolios in the past. Such waivers and/or reimbursements have the effect of increasing performance results.

Certain investment options may have adopted, with respect to certain classes, a distribution plan under Rule 12b-1 of the Investment Company Act of 1940. MetLife is paid the 12b-1 fee under the plan. Please see the prospectus for more information.

Asset allocation portfolios are "fund of funds" portfolios. Because of this two-tier structure, each asset allocation portfolio bears its own investment management fee and expenses as well as its pro rata share of the management fee and expenses of the underlying portfolios. The Contract Owner may be able to realize lower aggregate expenses by investing directly in the underlying portfolios instead of investing in an asset allocation portfolio. In that case, you would not receive the asset allocation services provided by an investment adviser.

The performance shown for the Lord Abbett Bond Debenture Portfolio's Class B shares for the period before February 12, 2002 is based on the performance of the Portfolio's predecessor fund (Bond Debenture Portfolio, a series of Cova Trust Series), as restated to reflect Class B's .25% 12b-1 fee.

MetLife Stock Index Class B shares are only available under contracts issued on or after May 1, 1995 and Class A shares for contracts issued prior to May 1, 1995. MFS Total Return Class E shares are only available under contracts issued on or after May 1, 1995 and Class A shares for contracts issued prior to May 1, 1995.

## Zenith Accumulator Variable Annuity

The performance data quoted represents past performance and does not guarantee future results. Current performance may be lower or higher than the performance figures quoted. Performance current to the most recent month-end may be viewed at [www.metlife.com](http://www.metlife.com). The investment return and principal value of an investment will fluctuate and an investor's shares, when redeemed, may be worth more or less than their original cost. Each Funding Option consists of an investment division of the separate account supporting the contract (an "Investment Division") that invests solely in shares of a fund portfolio (a "Portfolio"). Standardized Performance for an Funding Option, as defined by the SEC, is the Average Annual Total Return for periods commencing no earlier than the Investment Division inception date and terminating at the end of the most recent calendar quarter. Average Annual Total Returns shown that include periods prior to the Investment Division inception date are *Non-Standardized Performance*. Charges for Standardized Performance include all Portfolio-level expenses, the Mortality & Expense and Administration Charges of 1.35% (the Mortality and Expense Risk Charge includes an additional charge of 0.25% of average daily net assets on the American Funds Bond, American Funds Growth, American Funds Growth-Income and American Funds Global Small Capitalization Sub-accounts), the maximum applicable contingent deferred sales charge of 6.5% and the annual Account Fee of \$30. **Past performance does not guarantee future results.**

**Zenith Accumulator variable annuity issued by Metropolitan Life Insurance Company is offered by prospectus and is available from your financial professional. The contract prospectus contains information about the contract's features, risks, charges and expenses. Investors should consider the investment objectives, features, risks, charges and expenses of the investment company carefully before investing. The investment objectives, risks and policies of the funding options, as well as other information about the funding options, are described in their respective prospectuses. Please read the prospectuses and consider this information carefully before investing. Product availability and features may vary by state. Please refer to the contract prospectus for more complete details regarding the living and death benefits.**

**Variable annuities are long-term investments designed for retirement purposes. Variable annuities have limitations, exclusions, charges, termination provisions and terms for keeping them in force. There is no guarantee that any of the variable investment options in this product will meet its stated goals or objectives. The account value is subject to market fluctuations and investment risk so that, when withdrawn, it may be worth more or less than its original value. All product guarantees, including optional benefits, are subject to the claims-paying ability and financial strength of the issuing insurance company. Please contact your financial professional for complete details.**

**Withdrawals of taxable amounts are subject to ordinary income tax and if made before age 59½, may be subject to a 10% federal income tax penalty. Distributions of taxable amounts from a nonqualified annuity may also be subject to the 3.8% Unearned Income Medicare Contribution Tax if your modified adjusted gross income exceeds the applicable threshold amount. Withdrawals will reduce the living and death benefits and account value. Withdrawals may be subject to withdrawal charges.**
